

Blended Intensive Programme ReThink Cities & Regions

20–24 May 2024

Faculty of Economics and
Management

Opole University of Technology,
Opole, Poland

Join us for an immersive 5-day Blended Intensive Programme exploring solutions to the economic, environmental, social and demographic challenges facing non-metropolitan cities and regions.

Program Highlights:

- Collaborative workshops focused on attracting new students and residents
- Site visits with local government and business representatives
- Networking with students from universities across Europe
- Expert lectures on regional economy theory and policy
- Cultural experiences showcasing Opole's history, identity and heritage

Outcomes:

- Advanced knowledge of economic, environmental, social and demographic trends affecting non-metropolitan areas
- Ability to develop solutions tailored to the unique context of non-metropolitan cities and towns
- Connections with stakeholders positioned to implement strategies
- Understanding of interdisciplinary approaches essential for thriving 21st century communities

Get ahead of the trends reshaping urban and regional development! Leverage this opportunity to acquire in-demand skills and expand your professional network.

ReThink Cities & Regions (3ECTS credits)

Erasmus+ funding available at your home institution. Maximum 20 participants.

The **virtual component** of the BIP will be situated at least two weeks before the start of the BIP.
